Dear Govenor Shapp;

I am a senior at Edinboro State College and have visited Polk State School and Hospital on several occasions, and am extremely interested in the field of education.

I believe Dr. McClelland to be a person concerned with each and every patient at the school. I believe McClelland to be a man of integrity, concerned and devoted to Polk.

I am not familiar with either Ms. Wohlgemuth or Ms. Elkin's qualifications for passing judgement in this case. However, I do feel that the firing of McClelland and the accusation against his staff were unfair.

Sincerely,

*Sarah Elliston*

I have also sent this letter to Mrs. Wohlgemuth, state secretary for the Department of Public Welfare.
