SECRETARY'S OFFICE

Dear Mrs Wohlgermuth.

APR 23 1973

Did you ever live in a home
with a retarded child?

Well I did and I assure you
that there are many times when your
life and health are endangered
and you must take what may
appear to be cruel restraining
steps.

If you did not approve of
the "pens" at Poek, why could
you not have notified Dr.
McKelland to remove them, and
then advise what should have
been done instead?

Talk about dirty politics,
you and your Governor are
both through.

Sincerely
Mary S. Willis
