Ref. to

Mrs. Wohlgemuth, in hoping the firing of Dr. McClelland, will be the end of you. As one of the group who founded, and organized, Welfare Rights Organization in Philadelphia some years ago, "conflict of interest," surely applies to you, and needs some looking into. Other than that, I fail to see any qualifications you have, for such an important assignment. All of your opinions are biased. What rights does working man have to his hard-earned pay check? Supporting welfare should be choice only he makes.

Millions of mothers, for years on end, must be cruel too. Why do they keep babies in play pens? For only one reason, their safety and protection.

When welfare people take the time to descend on Harrisburg or Washington, in chartered buses, where does money come from? The Wohlgemuth millions?
(P.S. over.) Mrs. W. R. Davis

P.S.

These people dissatisfied with care of their children at Paik, or any other institution, can keep them at home, if they have the stomach, and compassion it takes. I'm sure the over-burdened taxpayer would be happy to unload them. What is cause of all this mental retardation? Its of epidemic proportion.
