

Mrs. Helene Wohlegemuth,

Before you make such drastic decisions as prohibiting play pens with tops over them or all enclosed, get out of your chair! Go to the Folk School! Take care of those people that are in the cages (as you call them)! Take care of them for one month and then make decisions and remarks.

I have a son in a state school. He was home for seven years and I know what it is to care for such children. I go to see him and they are wonderful to those children and adults. My son is hard to keep and severely retarded, but they would not do anything to hurt him.

You would not take care of those people one hour without using straight jackets or something. It's big to talk, but go do the work. That's a different story!

After taking my advice, please write back. Mrs. Eugene C. [redacted] R.F. #2
