

Do. old Helen Wohlgoemute

Exercise more care when you condemn a man of Dr. Jas.
McClelland's standards in the future, particularly since you are an
uneducated woman. It is believed you should be made to retract
your previous statements which was incorrect to say the least.
What medical or mental training do you have? Dr. Jas. McClelland
was an excellent man and capable of filling the position he
occupied at Folk until you come along.
