

Dear Miss Woklogmuth

Received in  
SECRETARY'S OFFICE

MAY 2 1973

DEPT. OF PUBLIC WELFARE  
REL TO

Maybe what I have to say  
won't ever be read or any  
attention given to it. I would  
like to say. You are the first  
human being I have heard  
of in a long, long time. There  
should be more surprise  
visits paid to places that  
care for the unfortunate  
human beings and the care  
and treatment they receive.  
Especially the ones that are

invalids, with brain damage  
that has to have everything  
done for them (like a baby)

This news article and the  
woman in it and the protesters  
should spend some time at  
the Palk Ins, and be confined  
to these wooden cages. You are  
right, this sort of thing needs  
cleaned up. I saw you on T.V.  
inspecting homes in Wilkes  
Barre, at time I remarked  
how young you were and  
maybe some of the things

that has been long over-  
looked, would get some  
attention. I happen to believe  
people your age are doers and  
not sitters. I am 54 so I am  
not young. Keep up the good  
work and good look.

Thank you.

Sarah Keen.
