Dear Mrs. Wohlgemuth,

I am writing this letter as the mother of a mentally retarded child in a state school.

We had to place our child in a state school.

We were unable to manage her. We felt so helpless placing her in the state school.

It was like a nightmare, and another nightmare to live with her.

For the first time since we have placed her at the state school. I feel hope.

Thank you for the fantastic job you are doing.

We, think you are wonderful.

The time has come for change.
