Dear Mrs. Holgemuth -

How unrealistic can one get? If you think deattee means are not sometimes necessary how would you like to spend a week with these people?

Dr. McLelland is a very capable, compassionate man.

If you found these pens so reprehensible, why did you not suggest other means of restraint?

Did you take notice of the good things done at the School?

Did you speak to the happy people there?

Very truly yours
